

Luxury Spa™ Showerhead

OVERVIEW

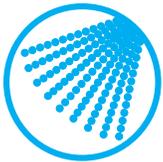

The Luxury Spa™ Showerhead combines style with outstanding water-saving performance. Engineered for durability and reliability, the all-metal showerhead features a chrome brass ball joint and robust tamper-proof design, making it perfect for commercial installations and high-traffic facilities. Innovative pressure compensating Equiforce® Technology ensures a powerful, Full-Body spray experience while saving water and energy. With a consistent flow rate of 1.5 gallons per minute, this WaterSense certified showerhead helps cut utility costs and supports sustainable goals.

FEATURES

- **Consistent, Luxurious Spray**
Patented pressure compensating Equiforce® Technology delivers an invigorating Full-Body spray.
- **Optimal Water and Energy Performance**
With a low 1.5 GPM flow rate, this showerhead saves up to 40% compared to standard models, reducing water use by up to 8,760 gallons annually for typical three-person households.
- **Built for Commercial Use**
All-metal body construction and tamper-proof key mechanism provide durability and security in hotels, gyms, dormitories, and other commercial settings.
- **Durable Chrome Finish**
Features a corrosion-resistant chrome-plated brass ball joint for smooth, 360° directional adjustments.
