

THE FUTURE OF HOSPITALITY SLEEP IS HERE.

SUPPORT SYSTEM

Introducing the new 860 Q4™ Coil Support System

EXCLUSIVELY FROM SERTA

This next evolution in mattress support technology features an innovative 4-in-1 linked coil design. Q4™ is engineered to deliver stable support, even weight distribution, enhanced comfort, and long-lasting durability throughout years of hospitality use.

Why Serta's Q4™ Matters?

Guest expectations have evolved, and mattress technology should too. Q4™ combines next-generation support with Total Edge® Foam Encasement for edge-to-edge stability, responsive comfort, and lasting durability. The result is a more consistent guest experience and performance built for hospitality.

What Makes It Different?

Unlike traditional coil systems, Serta's Q4™ features four individually wrapped coils linked together as a unified support structure, helping create a more stable and consistent sleep experience for every guest.

The Serta® Q4™ Advantage

- ✓ Q4™ Coil Support Technology Exclusively from Serta
- ✓ Edge-to-edge stability and long lasting durability
- ✓ Advanced 4-in-1 linked coil design
- ✓ Enhanced weight distribution
- ✓ Serta® Total Edge® Foam Encasement
- ✓ Long-term durability under hospitality use

How Does Q4™ Improve Your Bottom Line?

Q4™ helps protect both your guest experience and your capital investment, delivering stronger lifetime value across your rooms.

- Stronger guest satisfaction and review performance
- Performs better for longer relative to a Sealy 594
- Improved long-term cost efficiency per room

Q4™ is Serta's next-generation coil support system, built to deliver a more stable and consistent sleep experience for every guest.
