CONSTRUCTION

Frame is shaped solid beech wood, with glued and bolted assembly. Padded seats are foam on a plywood substrate with a fabric backer. Foot-ring is steel. Ships fully assembled.

CUSTOMIZATION

Units are stocked in quickship configurations and can be reupholstered to customer's specification. Pullover seat is also available. Factory customizations for lower-cost upholstery and different frame colors are available, but MOQ (minimum order requirements) of 100 units per order will apply.
