

# CLUSTER-CORE FIBERBALL

Comfort and peace of mind you can feel. The virgin polyester is formed into small fiber clusters rather than loose fiber strands, which allow fibers to move over each other smoothly, creating a pillow that holds its shape with enhanced durability and improved sleeping experience. Offered in a Luxurious microfiber pillow shell.

LodgMate®

## Micro Denier

Siliconized .7d Virgin Polyester Ball Fiber. Added Support and Resilience.

## BENEFIT FROM QUALITY PILLOWS MADE IN THE USA

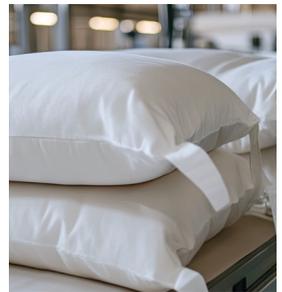

### KEY FEATURES

- **Light and Breathable:** Cluster fibers inhibit the growth of odor-causing bacteria, mold and fungus.
- **Fast Rebound:** A 5-second rebound time. Perfect balance between soft and support.
- **Machine Washable:** Easy to clean. Front load only machines, low heat, delicate cycles.
- **Virgin Materials:** 100% safe material. Hypoallergenic, antimicrobial, and odorless protection.
- **Cooling Technology:** Comfortable all year long. Air circulation helps regulate temperature for a more restful sleep.
