

Open/Closed Signs

Open/Closed Sign

There are two different product kits available. UV2400NS features a cabinet with an OPEN / CLOSED changeable sign, and 3/4" letter set. The UV2400BLANK offers the same cabinet, but choices of 8 different sign faces, based upon your needs.

The cabinet used in both kits has an injection molded groove board panel, to communicate messages or business hours. It is easily hung using the included suction cups, and is typically mounted on business front windows or doors. The sliding panel feature is located on the rear, to change from open to closed or from occupied to available without removing the cabinet.

Features:

- 3/4" White Helvetica letters, numbers, and symbols included
- High density polyethylene construction
- Black plastic sign with eye catching bright Orange decals
- Built in letterboard
- Adheres to windows with four included suction cups
- Durable, high impact plastic is easy to clean
- Available with a Black frame

Open/Closed sign already installed in board. This set includes 4 suction cups and 3/4" white Helvetica character set.

Simply slide sign from "open" to "closed"

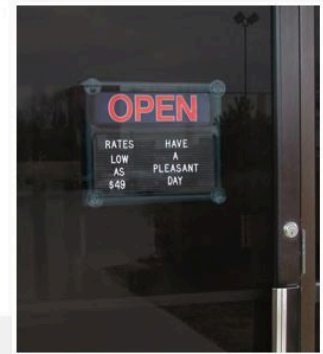

UV2400BLANK

Sign includes polyethylene signs, 8 sign faces, 4 suction cups, and 3/4" white Helvetica character set. Sign comes blank to choose insert option.

Lever on back slides to change sign.

Adheres to windows with four suction cups.
