

## EDGE CUT KEYS

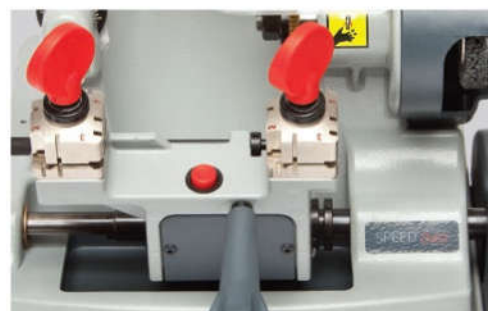

### PD40

#### ■ Speed 040

Automatic / Manual Operation

The Speed 040 is primarily an automatic model with the flexibility to be operated manually.

- Spring-loaded carriage applies consistent cutting pressure in automatic mode
- Rotating, four sided, nickel plated jaws for clamping most edge cut type keys
- Slotted jaw surfaces accommodate tip stop bars
- Wide 3 1/2" (88.9 mm) spacing between clamps accommodates large bow (head) and long blade keys, including flip style keys
- Depth tracer system with micro adjustment for precise calibration in increments of .00098" (0.025mm)
- Electro-magnetic "main" safety switch with a separate cutter motor switch for easy access.
- Large transparent cutter safety shield with storage area for accessories
- Large drawer-type swarf (chip) tray under the carriage for easy access
- Counter mounting bracket included
